

Hey guys!

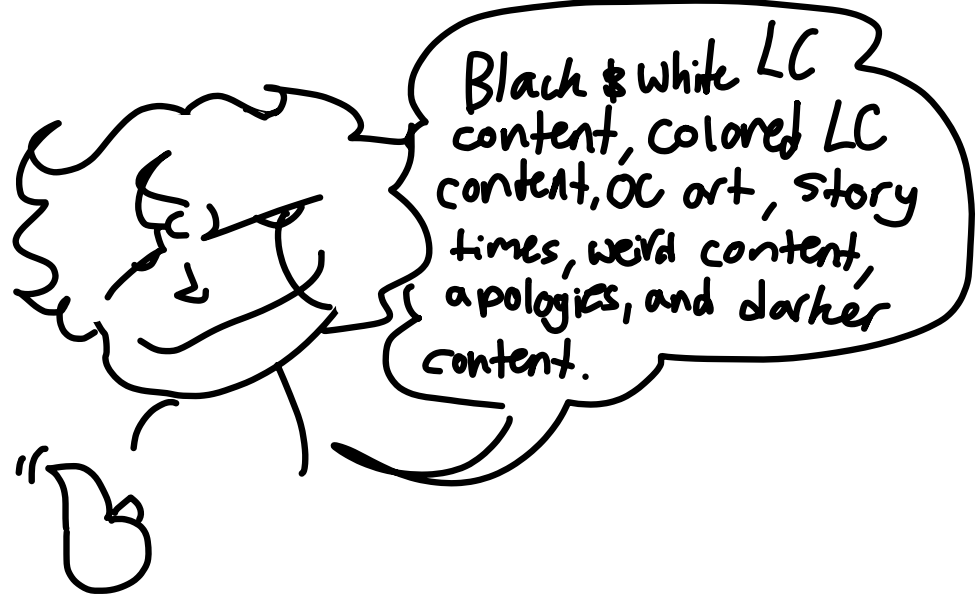

Like the lab rats you are...

I've decided to do a test on you guys.

I'm going to test you on how many likes each type of my content gets:

Black & white LC content, colored LC content, OC art, story times, weird content, apologies, and darker content.

Each note will be posted within 1 hour of each other to allow as many people as possible to see and like the post.  
I recommend doing this test too, so you can see what your viewers want to see most! :)  
Of course, you can post whatever you like, but it's a good test in case your out of ideas on what to post.
