

I swear with Apollo sometimes, he never quits being the dirty minded guy he is. I look at Vera and see that her blanket fell on the floor, I walks over to the blanket, and I bend down and grab the blanket. “Nice butt” Apollo said with a big smirk on his face, I quickly stood up “seriously!” I exclaimed, I quickly stood and covered Vera with her blanket, “Can we go to your room it’s a little bit boring with Vera sleeping the whole time” Apollo whined, I nodded. We both went up stairs and walked to my room, we shut the door behind us and and sat on my bed. He looks at me, “Kissie kissie” He said with a smile on his face, “Nah” I said. Looking at him with a smile, he nods, “Can I lay my head on your lap instead?” He asked. looking at me a slight smile. I nodded and patted my lap. He gently lays his head in my lap and looks at me. “What?” I said smiling at him. “You’re so beautiful” he said laying his right hand on my face. “I’m a guy though” I said. “Boys can be beautiful as well” He said. I smiled and rolled my eyes, I look out the window to see that the moon is already up. “We should get some sleep” I said. Laying me hand on Apollos forehead, he closes his eyes and nods. He sits up and lays next to me, “Cuddles please” he said in a childish voice. I nodded and got closer to Apollo. He slowly wrapped both of his hands around me, he quickly fell asleep but it took me a while to fall asleep. At last I was able to fall asleep.

In the morning I woke up to Apollo sleeping on the floor. “Did I kick him?” I thought to myself. I slowly sat up and I started at Apollo, I slowly got up” and walked over to Apollo. I pick up his leg and try to drag him up to the bed “Dang your heavy” I thought to myself. Twenty minutes passed and I was able to pull him up the bed. “Morning Sinn-” “shut up, leave me alone” I interrupted him. “Aw, is someone angry” he said. Pulling me down. I looked away. “What happened? Why are you so mad at me this early in the morning?” He said, making me look at him. “You weigh a lot, my back hurts from trying to pull you up the bed” I said. “Aww, want me too rub your back?” He said. With a grin on his face. “No, I known what your sick mind plans to do” I told him. He scoffed and nodded, “plus I’m not going to spend two hours of my life cleaning bed sheets again” I added. He laughed and nodded. “Thats a good excuse” he said. I hit his head, “So you were planning to do it!?” I yelled at him. “It’s not my fault you’re so cute” he

said. "Plus your body need a friend" he said, with a smirk all over his face. "Go to the corner now" I said. He scoffed "yes sir" He said. He stood up and walked to the corner of my room. "You'll stay there and think about your choices and decisions" I said.
