

# Mark the level of your pain when you...

(Feel free to add more!)

Step on a Lego

It rilly hurts  
but my bro  
has a lot  
of them all  
over the house  
so I've gotten  
used to it.

Paper cut

It only rilly hurts  
when u touch it or  
get smth in it

Poke your eye

I mean it hurts  
but not as much  
as when theres  
smth in ur eye

Stub your toe

I mean it  
lasts less than  
a min but it  
hurts soooooo  
BAD!  
?

Ears pop

Now this doesn't  
hurt but it bothers me

Something is stuck in  
your fingernails

Doesn't hurt but its  
so annoying!!!

You burn your tongue  
on something

Okay I have  
trauma from  
this, one time I  
was at the lobby  
at a hotel and  
I decided to  
pour hot cocoa and  
I didnt think it  
would be that hot  
so I took a huge  
sip and the pain  
was terriffic! It  
lasted for the rest  
of the dayyy!

You bite your tongue  
while eating

To me, it depends  
on how hard u  
bite it, and it  
rilly goes away  
fast.

Bug bite (I added this one)

For some reason  
I'm always getting  
bitten, and the  
itchiness and pain...  
I dont even need  
to explain! Mosquito  
and spider bites  
are prob the worst  
I have a couple  
of actual SCARS on  
my ankles from  
itching and scratching  
my bug bites so much  
Just ... OW!
