

Grab a plate, I'm using a paper plate. I know they are bad for the environment but I rather put a gun in my mouth than do another dish

Next up the bread, I ran out of the good bread and I have to use the weird end pieces not ideal but

we will make it work next up grab you peanut butter

I currently don't have the lid to my peanut butter because I'm using it as a ashtray now you have you have your peanut butter grab you utensil and start spreading, I'm using a plastic fork because like I said

I refuse to do another f--- dish in my life and because I ran out of my plastic knives

I know some of you in the comment section will complain about me using plastic. But I know you won't say that s— t in my face irl. If this s— ever ends and we go outside. I dare you to step up to me in the street. **TRY ME, TRY ME**
STEP UP YOU F—-ING PU—-ys DO YOU
THINK IM FU—ING AROUND

And there you have it the perfect
peanut butter sandwich
