

Ok I need help, not only is my 20 follower note not posting but I'm also in a bit of a silly pickle.

I need help choosing my dnd campaign story!! I have No. 1: Dragon of Icespire Peak and No. 2: Lost Mine of Phandelver, but I just can't choose!! 1 has cards for items in the game and easy to follow instructions in encounters, however 2 is longer actually has a hook in the beginning has more encounters and has text boxes for me to read (good things 😄)!!! I'm struggling so I'm going to do a vote rules in desc.
