

## Sqizardalii

Made by: Legorathalos14  
Tier 1 semiaquatic  
(Omnivore)

Concept: lizards, tropical  
oceans and jellyfish

Sqizardalii are small doglike/  
lizardlike semiaquatic creatures  
who prefer to ambush in packs of  
6-8 by hiding in the swamps or the  
tall grasses. They are closely  
related to Minawii and can  
communicate with them in similar  
calls, it is quite common to see  
some Sqizaralii tagging alongside  
Minawii's as bodyguards.

I dug up this crusty drawing of a creature design I made when I was a wee little one last year, decided to post it cause why not? It is eerily similar to minawii and the small cute creature gang but better post this and forget about it than keep it in my mind forever watching me. Might post more Creatures of Sonaria stuff later and don't forget to play the game, it's on Roblox and it's pretty fun.
