

I'm about to say something so controversial, so unpopular, so insane that I might even lose followers for this....

Hazbin Hotel 3 Helluva Boss  
r kinda bad.

I'll explain. (I'm not trying to change anyone's opinions, I just want to express mine)

At first I actually liked the shows. I've seen most of Helluva Boss but only the pilot & clips from episodes of Hazbin Hotel. It rly didn't take long for me to lose interest in them. Idk it's just not my cup of tea 🍵

The s3x jokes were funny at first but it got to a point where they felt forced and really really uncomfortable. Tbh i don't think they even count as jokes most of the time, but are rather just a character saying something really h0rn3y and that's funny for some reason :-|

The whole plot of s!nners getting rehabilitated and going to heaven is a interesting concept but it was done kind of weirdly imo. I like dark humor, but I don't like when a character has actually done a terrible thing and their excuse is "they're just misunderstood" or it's seen as a silly little gag. While I do believe that people can change & make up for the bad things they did, it's also important to remember that they're in h3ll for a reason. Some characters are literally cereal k!llers. They're not innocent people but the show treats them like they are.

Idk man 🧑

TL;DR y'all can enjoy watching whatever you enjoy watching. We all have our own opinions. Just don't do bad things 👍
