

Okay guys! Regarding the competition I was hosting, it may take some time 🥺 I am making progress with the post that has the results in it. It's just that notability crashed a while back and it got erased from existence lol so I'm redrawing it. What I'm doing is recreating the outfits and ranking them from 1-10, and I'm gonna do other stuff that I think is kinda cool. (Cool is subjective though, so you may find it cringey) 😬 anyways, I'm more than half way done with all the line art, please bare with me here 🙏
