

Side note, I skipped over a few bc they were repeats but yk
This one is for Nerth to Audrey - This Town by Niall Horan:

Waking up to kiss you and nobody's there --He loved her but he died
The smell of your perfume still stuck in the air --ig not perfume but he did say she always smelled of
flowers and books

It's hard

Yesterday I thought I saw your shadow running round --Hes in Elysuim right now and he goes for
walks and thought he saw her running to catch up with him

It's funny how things never change in this old town --Referring to camp halfblood where they would
hangout the most together

So far from the stars he is literally as far from the stars as possible

And I want to tell you everything -- he only got to talk to her briefly when Nico raised him

The words I never got to say the first time around --He only got to say those few words

And I remember everything --he always looks back his time with her

From when we were the children playing in this fairground --Another reference to camp. where he
would play and train with her

Wish I was there with you now --he always wished he had more time with her

If the whole world was watching I'd still dance with you --He wasn't a very social guy, more
introverted but would do it for her

Drive highways and byways to be there with you

Over and over the only truth

Everything comes back to you --All the good in his life he thought was with her and his family

I saw that you moved on with someone new --He saw when her and Ben kissed

In the pub that we met he's got his arms around you --At Madelyn's house

It's so hard --He hates that he can't be with her

So hard

And I want to tell you everything

The words I never got to say the first time around

And I remember everything

From when we were the children playing in this fairground

Wish I was there with you now

Because if the whole world was watching I'd still dance with you

Drive highways and byways to be there with you

Over and over the only truth

Everything comes back to you

You still make me nervous when you walk in the room

Them butterflies they come alive when I'm next to you --When he realized he was falling for her, he
would get a whole lot nervous when he went to hangout with her and the Forgottens

Over and over the only truth

Everything comes back to you

And I know that it's wrong --He can't be in love with her because hes dead and shes still alive

That I can't move on --He loved her that much

But there's something about you --He always thought she was incredible and perfect

If the whole world was watching I'd still dance with you

Drive highways and byways to be there with you

Over and over the only truth

Everything comes back to you

You still make me nervous when you walk in the room

Them butterflies they come alive when I'm next to you

Over and over the only truth

Everything comes back to you
Everything comes back to you
