Chapter 2

As me and player looked behind ourselves when kxkll said something about something behind us player used the flash gun and blinded rewrite so we had a chance to run. I grabbed Kxklls hand and we all sprinted to a room. We all passed a few doors and then found a room to hide in and then me and player blocked the door with a few heavy things and i picked up a metal pipe, “What the freak was that?!” I asked in panic at Kxkll, “I don’t know! That thing looked like it was going to jump at you guy!” kxkll said freaking out. “Well go find a way out me and player will watch the door” I said calming myself down, I looked at player and I said calmly “are you ok?..” player looked at me shaking “T-that thing looked like it was jumping at me..” I saw how scared we all were and then the door started to bang really loud and our hearts were beating fast “Kxkll! Find a way put fast!” Kxkll started looking in boxes and a few minutes later kxkll found a few files and a key card and she looked back at us “I found a key card come on!” Me and player looked at kxkll and started running to the next door with the key card and while kxkll was working the door, the other door that was blocked behind us barges open and rewrite comes bolting at us. Then we got the door open and we all went in and slammed the door.
