

My dog will not stop whining and crying at me, she is much more clingy than usual to the point she will start crying if I am not sitting by her, I can usually sit at my desk and draw and she will be fine with it, but now she is just making really sad noises if I'm not sitting by her. Idk what is wrong with her if she is just clingy or sick but I'm very worried

Anyone know how to fix this?? I'm kinda stuck
