

I took care of 6 pens of chickens, turkeys and ducks for a friend (I was getting paid, mind you) and it made me feel like a farmer

@MonkeybearQueen

6 chickens died in 5 days. none were really my fault

5 were from disease
but the last was the worst. An animal broke into a coop and
fought the rooster to the death. The rooster lost.

So many feathers
the blood in the water
the half eaten corpse

please don't ban me, I'm
losing my mind as it is

hear ye, hear ye,

MonkeybearQueen has now
disposed of dead chickens
