

NASA

1 The International Space Station was created by NASA.

2 😊 The space shuttle flies **inverted** when it takes off. This allows at greater **speed**.

3 😬 The ISS was built by taking parts from **Earth** into **space**.

4 👍 NASA stands for **National Aeronautics and Space Administration**

5 🚀🚀😎 The **Falcon 9** is a reusable rocket.

6 💰💰💰 Using reusable rockets allows Space X to save **money** all

7 😎😎 The **Soviet N-1** was the counterpart of the U.S

8- The orange external fuel tank carries enough fuel to be able to work all three engines.

|

9- The Bush Administration decided to retire the Space Shuttle Program.

10- The factors that caused the Space Shuttle Program to shut down were:

1. high costs

2. slow turnaround,

3.

few customers, and major safety problems
