

An update,

So, I had to delete all of my notes. I have recovered the ones I have posted to the gallery but I still lost 120 notes. I have kinda felt like magicarp over the past few days, useless. I know I am good at art and I can evolve into a garrados but what's the point If I lost everything. I organally was going to draw skeladerge but I lost that. So, here we are. Thanks to all of you who care.
